INFORMED CONSENT

To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

The nature of the chiropractic adjustment:

The primary treatment I use, as a Doctor of Chiropractic, is spinal manipulative therapy. I will use that procedure to treat you. I may use my hands or a mechanical instrument upon your body in such a way as to move your joints. This may cause an audible "pop" or "click", much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis / Examination / Treatment

As part of the analysis, examination, and treatment, you are consenting to the following procedures:

- Spinal Manipulative Therapy
- Orthopedic Testing
- EMS
- Other (please explain) _____
- Palpation
- Basic Neurological Testing
- Ultrasound
- Vital Signs
- Laser Treatment
- Hot/Cold Therapy
- Range of Motion Testing
- Postural Analysis
- Radiographic Studies

The material risks inherent in chiropractic adjustment.

As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following the first few days of treatments. I will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me.

The probability of those risks occurring.

Fractures are rare occurrences and generally result from some underlying weakness of the bone which I check for during the taking of your history and during examination and X-ray. Stroke has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur between one in one million and one in five million cervical adjustments. The other complications are also generally described as rare.

The availability and nature of other treatment options.

Other treatment options for your condition may include:

1. Self-administered, over-the-counter analgesics and rest
2. Medical care and prescription drugs such as anti-inflammatory, muscle relaxants and pain killers
3. Hospitalization
4. Surgery

If you chose to use one of the above noted "other treatment" options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

The risks and dangers attendant to remaining untreated.

Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

DO NOT SIGN UNTIL YOU HAVE READ AND UNDERSTAND THE ABOVE. PLEASE CHECK THE APPROPRIATE BOX AND SIGN BELOW:

I have read or have had read to me the above explanation of the chiropractic adjustment and related treatment. I have discussed it with the Doctor of Chiropractic at Back Country Chiropractic and have had my questions answered to my satisfaction. I certify that the information I have provided is correct to the best of my knowledge. I will not hold my doctor or any staff member at Back Country Chiropractic responsible for any errors or omissions that I may have made in the completion of this form. By signing below, I state that I have weighed the risks involved in undergoing treatment and have decided that it is in my best interest to undergo the treatment recommended. Having been informed of the risks, I hereby give my consent to that treatment.

HIPAA NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

This Notice of Privacy describes how we may use and disclose your protected health information (PHI) to carry our treatment, payment or health care operations (TPO) for other purposes that are permitted or required by law. "Protected Health Information" is information about you, including demographic information that may identify you and that related to your past, present, or future physical or mental health or condition and related care services.

Use and Disclosures of Protected Health Information:

Your protected health information may be used and disclosed by your physician, our staff and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you, pay your health care bills, to support the operations of the physician's practice, and any other use required by law.

Treatment: We will use and disclose your protected health information to provide, coordinate, or manage your health care and any related services. This includes the coordination or management of your health care with a third party. For example, we would disclose your protected health information, as necessary, to a home health agency that provides care to you. For example, your health care information may be provided to a physician to whom you have been referred to ensure that the physician has the necessary information to diagnose or treat you.

Payment: Your protected health information will be used, as needed, to obtain payment for your health care services. For example, obtaining approval for a hospital stay may require that your relevant protected health information be disclosed to the health plan to obtain approval for the hospital admission.

Healthcare Operations: We may disclose, as needed, your protected health information in order to support the business activities of your physician's practice. These activities include, but are not limited to, quality assessment activities, employee review activities, training of medical students, licensing, marketing, and fund raising activities, and conduction or arranging for other business activities. For example, we may disclose your protected health information to medical school students that see patients at our office. In addition, we may use a sign-in sheet at the registration desk where you will be asked to sign your name and indicate your physician. We may also call you by name in the waiting room when your physician is ready to see you. We may use or disclose your protected health information, as necessary, to contact you to remind you of your appointment.

We may use or disclose your protected health information in the following situations without your authorization. These situations included as required by law, public health issues, communicable diseases, health oversight, abuse or neglect, food and drug administration requirements, legal proceedings, law enforcement, coroners, funeral directors, and organ donation. Required uses and disclosures under the law, we must make disclosures to you when required by the Secretary of the Department of Health and Human Services to investigate or determine our compliance with the requirements of Section 164.500.

OTHER PERMITTED AND REQUIRED USES AND DISCLOSURES WILL BE MADE ONLY WITH YOUR CONSENT, AUTHORIZATION OR OPPORTUNITY TO OBJECT UNLESS REQUIRED BY LAW.

You may revoke this authorization, at any time, in writing, except to the extent that your physician or the physician's practice has taken an action in reliance on the use or disclosure indicated in the authorization.

May we phone, email or send you a text to confirm appointments? Yes No

May we leave a message on phone numbers or with any family members? Yes No

May we discuss medical condition with any member of your family? Yes No

Important Notice: You may have additional coverage options for these services through your medical insurance benefits. We recommend that you contact your health plan to inquire regarding coverage for these services prior to signing this form. Your knowledge of your insurance benefits is your responsibility. We attempt to verify insurance as a courtesy, however, sometimes information verified is not correct or clear regarding some covered benefits and eligibility is NOT a guarantee of payment.

Also, "Supportive Care" or "Maintenance Care" is NOT a covered benefit under most health insurance plans, therefore, any visits not deemed medically necessary by your insurance company after the fact will be your responsibility. We will do our very best to be your advocate and get your visits paid by your insurance for the services provided. However, in case we are unable to recover payment for those services, we have you sign this acknowledgement form as notification of charges that may not be covered or are not covered by your plan in advance. We appreciate your patronage to our office and for your understanding that every health plan is different and complicated patient by patient.

I, _____, a member being treat by Dr. Jennifer Wells and/or
